### ***Allowable Subject Matter***

2. The following is an examiner’s statement of reasons for allowance:

The prior art of record fails to teach or render obvious the following: **wherein the maximum allowed power of the amplifier is reduced based on each of the BER**

Art Unit: 2618

**messages generated for the signal transmitted at each of the N power levels,** wherein said BER messages are indicative of a measured BER for a signal transmitted at each of N power levels, where N is a positive integer, each of said BER messages including data indicative of a power level, among the N power levels, corresponding to the measured BER in the each of said BER messages and **wherein the power level of the amplifier is increased or decreased based on each of the CB BER measurement reports corresponding to the signal transmitted at each of the N power levels,** wherein said CB BER measurement reports respectively correspond to a signal transmitted at each of N power levels, where N is a positive integer, each of said CB BER measurement reports including data indicative of a measured BER and data indicative of a power level, among the N power levels, to which each of said CB BER measurement reports corresponds. Therefore independent Claims 1, 5, 10, and 14 and there corresponding dependent claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
